**Stick & Brick**

## Stick & Brick

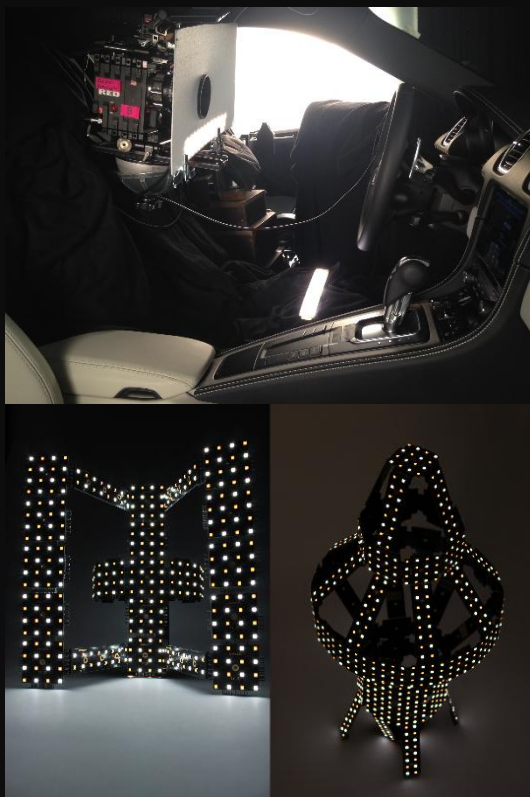

The Stick & Brick modules are versatile plug-in lights, ideal for accent lighting or abstract lighting setups. Thanks to their flexible plug connectors, the modules can be freely combined, connected, and oriented in different positions. Using the LCM205 battery controller (V-Mount) or the DMX205 controller, the Sticks & Bricks can be dimmed continuously from 0 to 100% and the color temperature can be adjusted seamlessly between 2700 and 6500 Kelvin. Each module delivers an impressive light output of 3 Watts. The modules can even be connected and configured during operation.

## Highlights

- 3 Watts per module
- Bicolor
- 2700 – 6500 Kelvin
- 0-100% dimmable
- LCM205 LCM205 battery controller (V-Mount)
- DMX 205 Controller
- Flexible configuration
- Daisy-chainable
- Mounting holes  $\varnothing$  3.2 mm

**Scope of delivery includes:** Can be assembled individually on request

## Technical Data

Dimensions (W/H/D):	Stick 95x25x7mm
	Brick 50x50x7mm
Power max:	3 Watt
Weight:	12 g
Color rendering index:	CRI > 95
Color temperature:	2700 – 6500 K
Color:	Bicolor
