Butterfly-LedZ 1KW

Butterfly-LedZ 4x4 1KW

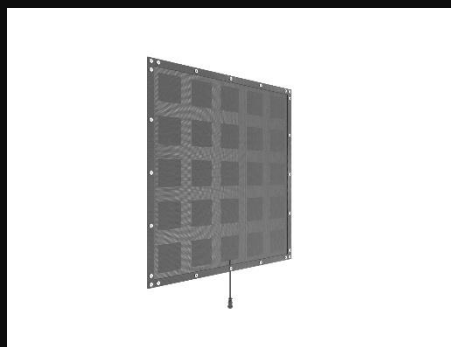

Highlights

The Butterfly-LedZ 4x4 1KW is the most powerful light net in the 4x4" version. 25 individual modules provide a completely homogeneous light distribution across the surface. All Butterfly-LedZ variants from Inteca Cinetile are extremely robust yet lightweight textile-based light nets. Their flexibility is what makes these products truly unique – simply fold them up and carry them as hand luggage. Butterfly-LedZ light nets are equipped with hook-and-loop fasteners and eyelets for effortless mounting on standard frames. Custom sizes available on request.
